Project Profile CVBP Technology: HTML5, Angular 7, Asp.net Web API

Customer Value Based Portal is a second phase of the Home Loan processing system (HLPT 2.0) for Commonwealth Bank. The end user can approach the bank using a Broker or Lender for getting the home loan. Once the request has been submitted, the request will immediately send to PEGA, a third-party service to get the decision. Based on the decision from PEGA, the request for loan may get approved, rejected or escalated. Once the request has been approved, the user must accept within 14 days and when the user has accepted, the request has a validity period of 30 days.
